PREFECTS OF DISCIPLINE IN COLLEGE

'56-'57—Fathers Lynch and Monaghan seem to have divided the work between them over their seven boys in Buffalo: the latter doing most of the Prefect work; the former spending most of his time "on the road" soliciting help.

'57-'58—While Father Lynch still kept "on the road" the most of the time, Fathers Monaghan, Thomas Smith and Dennis Leyden seem to have distributed their work at home quite equally among the twenty collegians and about three seminarians.

'58-'59—The first regularly appointed Prefect was the Vincentian seminarian who came from the Barrens, Missouri, in July '58, and returned to the Barrens, August 29th, '59, to complete his studies for the priesthood, Abraham J. Ryan, the future poet-priest of the South. After him in the position came

THE NIAGARA INDEX

In January, 1870, the *Niagara Index* was launched by its builder and first "skipper," the Rev. J. W. Hickey, C.M. It left port under the registry of "Niagara's Tribute;" but in a few years it changed to its present name; but though the language of the crew was the "Queen's English," the name was in the language of the Court—Latin. After a few more years, the crew gilded the name on the prow in English. Only twice in the sixty-one years of its roving did the "skipper" have to make for dry dock—from '18 to '19, and from '20 to '23. Consequently, it did its fighting during the war. After thorough reconditioning, it came out with its three funnels smoking—as well as the crew. Since '70, it has at various times made sailings quarterly, monthly, bi-monthly and weekly. Only thrice since "Skipper Hickey" left the wheel, did Vincentian priests apply for a license—the Rev. Thomas Shaw in '76 (who was the embodiment of that spirit), and the Rev. J. J. Lamey in '78; and the Rev. John J. Flynn in '14. But they have always walked the deck to see that all was shipshape. Until '16, with the exception of these four times, the ship was ever under the control of the seminarians; and the cargo was mostly supplied by them, a great deal by the priests, and quite a little by the collegians. But after she came out of dry dock she has been manned by the collegians, and very little cargo has come either from the priests or the seminarians.
